

A PARENT'S GUIDE TO EOS

Employability Operating System

What is the purpose of EOS at TCHS:

- To provide an opportunity for students to learn, self-assess, and improve 21st century skills.
- To provide a metric for determining which students can participate in Academy or PBIS events, experiential field trips, business partner opportunities, etc.
- To develop an additional means for addressing specific behaviors.

How does EOS work?

Students earn all their points at the start of class and lose points by not meeting behavioral expectations. The Reference Sheet attached is what teachers will use to measure these scores. This EOS score will help students consistently demonstrate what they should know, understand, and/or can do (related to employability) in the areas of dependability, communication, and technology to themselves and their families.

Common Examples:

Late to class = loss of dependability point that day

Using phone in red zone = loss of technology point that day

How can I see my child's EOS scores?

1. Parents must verify their email with Infinite Campus to login and follow their student.
2. Visit <https://eos.fcps.net>
3. Click "Parent Register" Fill out the form and make sure the email matches what is on record in Infinite Campus. (Parents can change their email in Infinite Campus using the Parent Portal.)
4. An email will be sent to complete the registration/verification process (the link in the email will expire in 1 hour!)
5. Click on the link in the email and you will be directed to create a password. You may now login.

How does this score impact my student's academic grade?

A student's grade in class is dependent on Academic performance only. An academic grade reflects what students demonstrate they know, understand, and/or can do related to academic standards. If students consistently do not demonstrate appropriate employability skills, it is likely their academic grade may suffer, however, the EOS score, while listed in the gradebook for notification purposes, does not impact the academic grade itself.

How can my child check his or her own EOS score?

Students can login and see eOS scores at any time by visiting <http://eos.fcps.net>, using their school email and password. It will also be entered as a gradebook entry for a 0 point assignment in IC and will be updated regularly.
